## Experience

### Full Stack Web Developer

GamicaCloud

Feb 2021 - Aug 2021

Faisalabad, Pakistan

- Completed 4 months of training & 3 months of internship in Full Stack Web Development using MERN Stack.
  - JavaScript (Basic to Advanced)
    - How JavaScript really works behind the scenes and how to think and work like a developer: problem-solving, researching, workflows.
    - JavaScript fundamentals: variables, if/else, switch statement, operators, boolean logic, functions, arrays, objects, loops, strings, etc.
    - Modern ES6+ from the beginning: Data Structures, Modern Operators, arrow functions, destructuring, spread operator, optional chaining (ES2020), etc.
    - Modern OOP: Classes, constructors, inheritance, encapsulation, Chaining Methods etc.
    - Complex concepts like the DOM, 'this' keyword, higher-order functions, closures, etc.
    - Asynchronous JavaScript: Event loop, promises, async/await, AJAX calls and APIs.
    - Modern tools for 2021 and beyond: NPM, Parcel, Babel and ES6 modules.
  - React Js / Redux Js
    - Learned the latest features in React including Hooks, Context API, Suspense etc.
    - Master fundamental concepts behind structuring Redux applications.
    - Build amazing single page applications with React JS and Redux.
  - Node Js / Express Js
    - Studied the Javascript and technical concepts behind NodeJS.
    - Learned the basics concepts of NodeJS in great detail.
    - Created a CRUD using the Express Js.

### Frontend Web Developer

GamicaCloud

Feb 2021 - Aug 2021

Faisalabad, Pakistan

- Specialized in Front End Web Development utilizing HTML5, CSS3, JavaScript, jQuery, jQuery Plugins, Bootstrap, and Json.
  - Grasped modern, semantic and accessible HTML5, Important CSS concepts such as the box model, positioning schemes, inheritance, solving selector conflicts, etc.
  - Brought mockups to life with the final result of a responsive web page and CSS animations using HTML, CSS, JavaScript.
  - Managed website development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility.
- Designed and developed front-end for 5+ landing pages and 2 user-centric E-Commerce sites for business owners and some other websites using jQuery, JavaScript, HTML5, and CSS/Bootstrap.
  - Worked closely with multidisciplinary team with other professionals such as back-end developers to provide end-to-end solutions and clients to meet project requirements, goals, and desired functionality.
  - Communicated with the backend developers for any frontend problematic issues.
